Programme specification and curriculum map for

PGCert SEND: Educational Testing

In partnership with
Middlesex University London

1. Programme title	PGCert SEND: Educational Testing
2. Awarding institution	Middlesex University
3. Teaching institution	Real Training
4. Programme accredited by	
5. Final qualification	Postgraduate Certificate
6. Academic year	2020-2021
7. Language of study	English
8. Mode of study	Distance Learning

9. Criteria for admission to the programme

Prospective students will have:

- an undergraduate degree
- experience and current opportunities of working with children with SEND
- access to a computer, internet and a suitable word processing program
- a level of English Competence e.g. IELTS 6.5 with a minimum of 6 in each component

10. Aims of the programme

The programme aims to enable students to:

- understand how educational tests are developed and standardised
- be able to interpret psychometric test scores
- be able to write assessment reports, and to understand and confidently interpret the reports of others
- be able to comply with the requirements of relevant legislation in your assessment processes
- engage in critical reflection about assessment and intelligence testing practice
- evaluate the impact of assessment and testing practice
- apply knowledge and skills in assessment and testing in educational contexts

11. Programme outcomes

A. Knowledge and understanding

On completion of this programme the successful student will have knowledge and understanding of:

1. theories underlying assessment and testing
2. policy and legislation as applicable to assessment and testing
3. how psychometric test are developed and standardised
4. the way in which theory and research contribute to development of professional practice in a specialist area of SEND
5. how knowledge explored in the module has impacted on wider educational policy and professional practices.

Teaching/learning methods

Students acquire knowledge and understanding through guided study utilising the online learning platform, webinars, online discussion forums and online tutor support, and through reading, writing critical analysis of current research and policy documents, keeping a reflective learning logs, and the application of new theoretical and professional knowledge to their practice.

Assessment Method

Students' knowledge and understanding is assessed by written coursework comprising of critical analysis, applied practice analysis and reflective analysis.

B. Cognitive (thinking) skills	**Teaching/learning methods**
On completion of this programme the successful student will be able to: 1. critique literature relating to theories of assessment and testing 2. synthesise and critique relevant literature and research evidence in order to inform a systematic enquiry related to an aspect of SEND practice 3. critically evaluate and reflect on their own practice and/or research.	Students develop cognitive skills through engagement with the course learning resources and tasks requiring critical analysis, and evaluation of existing paradigms and practices. **Assessment Method** Students' cognitive skills are assessed by written coursework including critical analysis, applied practice analysis and reflective analysis. Students will demonstrate originality of approach to the opportunities and challenges presented within their applied workplace setting.
C. Practical skills	**Teaching/learning methods**
On completion of the programme the successful student will be able to: 1. select, administer and interpret a range of educational tests, and report the findings in a way that is intelligible to a lay person. 2. apply elements of organisational psychology/self organised learning to their review of assessment practice 3. engage in reflective practice in order to enhance pedagogy 4. design, implement and critically evaluate the impact of evidence-informed provision for pupils in the learning environment.	Students learn practical skills through assigned tasks within their applied educational setting and coaching. **Assessment Method** Students' practical skills are assessed by coursework including applied practice analysis of the needs/ problems of current work setting, critique of current theoretical perspectives and a continuing reflective learning log to include critical evaluation of the impact of their learning on pupil and school performance. Students will demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional level

D. Graduate Skills	Teaching/learning methods
On completion of this programme the successful student will be able to: 1. critically analyse the current research and good practice guidance against existing assessment policy and applied practice in their educational setting. 2. use what they have learnt in order to construct their own understanding, to reflect on their own practice, and evaluate their decisions made in relation to assessment practice across the setting 3. deal with complex issues systematically and communicate their understanding clearly and effectively.	Students will develop enhanced academic skills through the support and tutoring available within the module and through formative feedback for their assignments. **Assessment method** Students' graduate skills will be assessed through the submission of the assignments for these modules including critical analysis, applied practice analysis and reflective analysis. Assignments, applied practice tasks, contributions to forum discussions, interactions with tutors.

12. Programme structure (levels, modules, credits and progression requirements)

12. 1 Overall structure of the programme

Delegates complete two modules:

- (M02A) Certificate of Competence in Educational Testing – Skills & Knowledge Module (30 credits) - 1 year duration*
- (M13) Evidence and Pedagogy for Inclusion (30 credits) - 1 year duration*

*modules can be taken concurrently and work can be submitted to earlier assessment board.

12.2 Levels and modules

Level 7 (4)

COMPULSORY	OPTIONAL	PROGRESSION REQUIREMENTS
(M02A) Certificate of Competence in Educational Testing – Skills & Knowledge Module (30 credits) (M13) Evidence and Pedagogy for Inclusion (30 credits)	There are no optional choices.	

12.3 Non-compensatable modules (note statement in 12.2 regarding FHEQ levels)

Module level	Module code
7	All modules are non-compensatable.

13. A curriculum map relating learning outcomes to modules

See Curriculum Map attached.

14. Information about assessment regulations

Middlesex University Regulations apply to this programme

15. Placement opportunities, requirements and support (if applicable)

n/a

16. Future careers (if applicable)

Roles in educational settings supporting the needs of learners with SEND.

17. Particular support for learning (if applicable)

Support for online learning will be given as this programme is delivered via distance learning.

Students entering the programme may have a range of recent academic experience, with some continuing students, and some with a gap between their last studies at higher education and/or master's level.

Advice is available on all the modules to support any student with the study skills they need to undertake the programme including: Critical writing, Critical writing and Harvard referencing. Students are also encouraged to think critically about the area of SEND which they are engaged with.

Technical support for Campus Online learning platform and a general IT issues is provided by Real Training's IT department. Pastoral support is also provided by the Real Training team, who ensure each student's needs are treated according to their individual situation.

18. JACS code (or other relevant coding system)	X161
19. Relevant QAA subject benchmark group(s)	Level 7 (Framework for Higher Education Qualifications in England, Wales and Northern Ireland, 2008)

21. Other information

This programme is designed by Real Training and is validated by Middlesex University.

Please note programme specifications provide a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve if s/he takes full advantage of the learning opportunities that are provided. More detailed information about the programme can be found in the student programme handbook and the University Regulations.

Curriculum map for PGCert SEND: Educational Testing

This section shows the highest level at which programme outcomes are to be achieved by all graduates, and maps programme learning outcomes against the modules in which they are assessed.

Programme learning outcomes

Knowledge and understanding		Practical skills	
A1	Theories underlying assessment and testing	C1	select, administer and interpret a range of educational tests, and report the findings in a way that is intelligible to a lay person.
A2	Policy and legislation as applicable to assessment and testing	C2	apply elements of organisational psychology/self organised learning to their review of assessment practice
A3	How psychometric test are developed and standardised	C3	Engage in reflective practice in order to enhance pedagogy

A4	The way in which theory and research contribute to development of professional practice in a specialist area of SEND	C4	Design, implement and critically evaluate the impact of evidence-informed provision for pupils in the learning environment
A5	How knowledge explored in the module has impacted on wider educational policy and professional practices		
Cognitive Skills		**Graduate Skills**	
B1	Critique literature relating to theories of assessment and testing	D1	Critically analyse the current research and good practice guidance against existing policy and applied practice in their educational setting
B2	Synthesise and critique relevant literature and research evidence in order to inform a systematic enquiry related to an aspect of SEND practice	D2	Use what they have learnt in order to construct their own understanding, to reflect on their own practice, and evaluate their decisions made in terms of theory.
B3	Critically evaluate and reflect on their own practice and/or research	D3	Deal with complex issues systematically and communicate their understanding clearly and effectively.
