

Programme specification and curriculum map for

PGCert SEND: Social, Emotional and Mental Health Needs

1. Programme title	PGCert SEND: Social, Emotional and Mental Health Needs
2. Awarding institution	Middlesex University
3. Teaching institution	Real Training
4. Programme accredited by	
5. Final qualification	Postgraduate Certificate
6. Academic year	2020-2021
7. Language of study	English
8. Mode of study	Distance Learning

9. Criteria for admission to the programme

Prospective students will have:

- an undergraduate degree
- experience and current opportunities of working with children with SEND
- access to a computer, internet and a suitable word processing program
- a level of English Competence e.g. IELTS 6.5 with a minimum of 6 in each component

10. Aims of the programme

The programme aims to enable students to:

- develop participants' understanding of theories influencing approaches to working with children with SEMH needs.
- develop participants' understanding of the history of SEMH in the UK context.
- ensure that students understand key aspects of 'normal' child development and their likely relationship to SEMH needs.
- develop participants' understanding of the characteristics of children and young people with SEMH needs and how the labelling process works.
- develop participants' understanding of the legislation and current trends relating to SEMH.
- develop student's knowledge and understanding of SEMH and the ways in which such difficulties can be both identified and appropriately supported in the learning and social contexts.
- provide opportunities for students to identify and develop strategies for the management of children who are experiencing SEMH.
- understand and respond with enhanced skill to more specific mental health difficulties and well-being issues in children with SEMH needs.

11. Programme outcomes

A. Knowledge and understanding

On completion of this programme the successful student will have knowledge and understanding of:

1. the nature of SEMH and approaches to working with children with SEMH needs with reference to relevant legislation and guidance.
2. children's social and emotional development (including the development of attachment) and support for SEMH needs including specific difficulties such as self-harm, anxiety, depression, and eating disorders.
3. the interface between SEMH and mental health theories about risk and resilience drawn from mental health research.
4. identification and support for SEMH needs including specific difficulties such as self-harm, anxiety, depression, and eating disorders.
5. the way in which theory and research contribute to development of professional practice in a specialist area of SEND
6. how knowledge explored in the module has impacted on wider educational policy and professional practices.

Teaching/learning methods

Students acquire knowledge and understanding through guided study utilising the online learning platform, webinars, online discussion forums and online tutor support, and through reading, writing critical analysis of current research and policy documents, keeping a reflective learning logs, and the application of new theoretical and professional knowledge to their practice.

Assessment Method

Students' knowledge and understanding is assessed by written coursework comprising of critical analysis, applied practice analysis and reflective analysis.

<p>B. Cognitive (thinking) skills</p> <p>On completion of this programme the successful student will be able to:</p> <ol style="list-style-type: none"> 1. critically analyse approaches to the management of SEMH. 2. review psychological theories underpinning social/emotional development and apply this knowledge to practice in the real world. 3. critique tools for assessment and identification. 4. critique tools for assessment and identification. 5. synthesise and critique relevant literature and research evidence in order to inform a systematic enquiry related to an aspect of SEND practice 6. critically evaluate and reflect on their own practice and/or research. 	<p>Teaching/learning methods</p> <p>Students develop cognitive skills through reading, reflecting on past and current experience by recording this in their reflective learning log, and through engaging in asynchronous discussions within the online forum.</p> <p>Assessment Method</p> <p>Students' cognitive skills are assessed by written coursework including critical analysis, applied practice analysis and reflective analysis. Students will demonstrate originality of approach to the opportunities and challenges presented within their applied workplace setting.</p>
--	--

<p>C. Practical skills</p> <p>On completion of the programme the successful student will be able to:</p> <ol style="list-style-type: none"> 1. use enquiry techniques to research and evaluate provision for SEMH in their work context. 2. apply knowledge to practice in the real world context. 3. engage in reflective practice in order to enhance pedagogy 4. design, implement and critically evaluate the impact of evidence-informed provision for pupils in the learning environment 	<p>Teaching/learning methods</p> <p>Students learn practical skills through assigned tasks within their applied educational setting and coaching.</p> <p>Assessment Method</p> <p>Students' practical skills are assessed by coursework including applied practice analysis of the needs/ problems of current work setting, critique of current theoretical perspectives and a continuing reflective learning log to include critical evaluation of the impact of their learning on pupil and school performance.</p> <p>Students will demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional level.</p>
<p>D. Graduate Skills</p> <p>On completion of this programme the successful student will be able to:</p> <ol style="list-style-type: none"> 1. critically analyse the current research and good practice guidance against existing policy and applied practice in their educational setting 2. use what they have learnt in order to construct their own understanding, to reflect on their own practice, and evaluate their decisions made in terms of theory 3. deal with complex issues systematically and communicate their understanding clearly and effectively. 	<p>Teaching/learning methods</p> <p>Students will develop enhanced academic skills through the support and tutoring available within the module and through formative feedback for their assignments.</p> <p>Assessment method</p> <p>Students' graduate skills will be assessed through the submission of the assignments for these modules including critical analysis, applied practice analysis and reflective analysis.</p> <p>Assignments, applied practice tasks, contributions to forum discussions, interactions with tutors.</p>

12. Programme structure (levels, modules, credits and progression requirements)

12.1 Overall structure of the programme

Delegates complete two modules:

- (M04A) Social, Emotional and Mental Health Needs– Skills & Knowledge (30 credits) - 1 year duration*
- (M13) Evidence and Pedagogy for Inclusion (30 credits) - 1 year duration*

*modules can be taken concurrently and work can be submitted to earlier assessment board.

12.2 Levels and modules

Level 7 (4)

COMPULSORY	OPTIONAL	PROGRESSION REQUIREMENTS
(M04A) Social, Emotional and Mental Health Needs – Skills & Knowledge (30 credits) (M13) Evidence and Pedagogy for Inclusion (30 credits)	There are no optional choices.	

12.3 Non-compensatable modules (note statement in 12.2 regarding FHEQ levels)

Module level	Module code
--------------	-------------

7	All modules are non-compensatable.
---	------------------------------------

13. A curriculum map relating learning outcomes to modules
See Curriculum Map attached.

14. Information about assessment regulations
<i>Middlesex University Regulations apply to this programme</i>

15. Placement opportunities, requirements and support (if applicable)
n/a

16. Future careers (if applicable)
Roles in educational settings supporting the needs of learners with SEND.

17. Particular support for learning (if applicable)
--

Support for online learning will be given as this programme is delivered via distance learning.

Students entering the programme may have a range of recent academic experience, with some continuing students, and some with a gap between their last studies at higher education and/or master's level.

Advice is available on all the modules to support any student with the study skills they need to undertake the programme including: Critical writing, Critical writing and Harvard referencing. Students are also encouraged to think critically about the area of SEND which they are engaged with.

Technical support for Campus Online learning platform and a general IT issues is provided by Real Training's IT department. Pastoral support is also provided by the Real Training team, who ensure each student's needs are treated according to their individual situation.

18. JACS code (or other relevant coding system)	X161

21. Other information

This programme is designed by Real Training and is validated by Middlesex University.

Please note programme specifications provide a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve if s/he takes full advantage of the learning opportunities that are provided. More detailed information about the programme can be found in the student programme handbook and the University Regulations.

Curriculum map for PGCert SEND: Social, Emotional and Mental Health Difficulties

This section shows the highest level at which programme outcomes are to be achieved by all graduates, and maps programme learning outcomes against the modules in which they are assessed.

Programme learning outcomes

Knowledge and understanding		Practical skills	
A1	The nature of SEMH and approaches to working with children with SEMH needs with reference to relevant legislation and guidance (past and current)	C1	Use enquiry techniques to research and evaluate provision for SEMH.
A2	Typical and atypical social/emotional development, including the development of attachment	C2	Apply knowledge to practice in the real-world context.
A3	The interface between SEMH and mental health theories about risk and resilience drawn from mental health research.	C3	Engage in reflective practice in order to enhance pedagogy
A4	Identification and support for SEMH needs including specific difficulties such as self-harm, anxiety, depression, and eating disorders	C4	Design, implement and critically evaluate the impact of evidence-informed provision for pupils in the learning environment
A5	The way in which theory and research contribute to development of professional practice in a specialist area of SEND.
